ETHICON TRUE-GAUGED SURGICAL GUT

in FOIL STRENGTH

Av. Knot Pull

much above B.P. and U.S.P. standards

More pliable too

'There would appear to be considerable justification for its immediate use in severe infections due to penicillin-resistant strains of staph. aureus'

Brit. med. J. 1960 ii, 703

heart operations now monitored from outside the theatre

The new N.E.P. monitoring desk is 'fully operational' in a special way. For the first time, a complete monitoring system for cardiac surgery and diagnosis is available as a single unit. It can be installed in a central monitoring room, thus reducing theatre overcrowding, and can serve several theatres and recovery wards.

Monitoring centralised — simplified

In a major London hospital, the system is arranged to serve two theatres and a recovery ward. Duplication of much equipment is avoided; only one technician is required for monitoring. Multi-way cables make connections via overhead booms. A complete speech intercommunication system links the various rooms with the central monitor. Repeat oscilloscopes and display meters in various rooms of the cardiac centre show any waveform and measurements.

A flexible unit

Two twin-beam oscilloscopes (*centre*) reproduce any four wave forms. Permanent records are made on a twelve-channel photographic recorder (*lower right*). Any of the eight amplifier channels (*upper left and right*) can be linked to any room in the cardiac centre. The desk can be supplied in other forms, incorporating other equipment according to the facilities required.

Halve the exposure

At all kilovoltages, ILFORD Fast Tungstate intensifying screens can be rated at twice the speed of ILFORD Standard screens, yet any loss of definition entailed by their use is practically negligible.

This enables the radiologist to implement the strong recommendations of the Adrian report, in that dosage to the patient can be halved without sacrifice of diagnostic quality in the resultant radiographs, while radiation hazards to the operator are similarly reduced. Another important advantage offered by the new screens is the possibility of obtaining

improved definition by minimising the effect of subject movement through the use of shorter exposure times. II FORD Fast Tungstate screens will also be found of particular benefit in conjunction with mobile units of limited output, such as are used in wards and operating theatres.

Fast Tungstate screens cost no more than Standard screens, while their flexibility, durability and other physical characteristics conform to the same high standards of quality as these and other intensifying screens in the ILFORD range.

FAST TUNGSTATE-

a new screen for general radiography

ACHIEVEMENT

The 1896 Cannstatt-Daimler, in which King Edward VII—then Prince of Wales—had his first motor-car ride in this country.

The present-day Lotus
Elite with the Coventry
Climax engine is capable
of speeds approaching
130 m.p.h.

BROXIL ACHIEVES MORE RAPID CLINICAL RESULTS IN ALL GRAM-POSITIVE INFECTIONS

Quickly absorbed from the gastro-intestinal tract, Broxil produces within a period of half to one hour peak serum concentrations higher than can be obtained with any other penicillin. Clinical response with Broxil has been noted to be more rapid than with penicillin V and in most cases recourse to injections is unnecessary.

Broxil, the high peak penicillin, is the potassium salt of 6-(alpha-phenoxypropionamido)-penicillanic acid. It is available in tablet or syrup form.

Broxil Tablets Basic NHS price: packs of 100 tablets: 125 mg. 54 9, 250 mg. 108 -.

Broxil Syrup Basic NHS price: bottles of 60 ml. when dispensed (each 5 ml. containing 125 mg.) 12'4.

'ONLY SIX DAILY, DOCTOR ?'

Two new additions to the WANDER range of Pasinah products will provide greater convenience for your patients during their tuberculotherapy and gain their closer collaboration because each will give a full daily regimen in only six cachets • • • • •

PASINAH-6PH

PASINAH-302

for regimens of 10 g. Sodium PAS and 200 mg. Isoniazid.

Each 'Pasinah-6PH' cachet contains:
Sodium Aminosalicylate B.P. ... 1.67 g.
Isoniazid B.P. ... 33.3 mg.
thus giving in 6 cachets the total daily drug quantities (10 g. Sodium PAS and 200 mg.
Isoniazid) which the M.R.C. originally recommended to be given in eight '10PH' cachets.

for regimens of 12 g. Sodium PAS and 300 mg. Isoniazid.
Each 'Pasinah-302' cachet contains:
Sodium Aminosalicylate B.P. ... 2 g.
Isoniazid B.P. ... 50 mg. thus giving in 6 cachets the above daily drug quantities.

Note-For easier swallowing 'Pasinah-6PH' and 'Pasinah-302' cachets are smooth, without sharp edges.

R 'PASINAH-6PH' and 'PASINAH-302', and reduce the known dangers which may result from drug default. Flexibility of single dosage is maintained: 3 cachets twice daily or 2 cachets three times daily, according to your instruction.

Packs: Tins of 180 cachets (30 days' supply) and 540 cachets (90 days' supply) packed in daily units of 6 cachets.

TREATMENT OF TUBERCULOSIS

'TRESCATYL'

trade mark

ethionamide

The use of 'Trescatyl' and a suitable companion drug for previous treatment failures has proved effective in a high percentage of cases.

Available as tablets (scored) of 250 mg.

SIMPLER TUBERCULOTHERAPY

Twice-daily dosage of PAS and isoniazid is greatly increasing the reliability of domiciliary chemotherapy in tuberculosis, by lessening the risk of missed doses.

now a choice of two

PAS-isoniazid preparations for bd dosage

For those who can tolerate PAS

PYCAMISAN B.D.

CACHETS in twice-daily packs

* b.d. REMINDER PACK—printed to show morning and evening doses. Each contains 8 cachets, giving a total daily dose of 12 grammes PAS and 300 mg. isoniazid

* SMALLER CACHETS—easier to swallow

* SAFER CACHETS—wet-sealed to prevent opening or spilling thus providing accurate doses

In tins of 240 (one month's supply) and 480 (two months' supply)

For those intolerant to PAS

non-irritant tasteless GRANULES

* REDUCED GASTRIC IRRITATION—fat-protected granules minimise gastric irritation. Nausea virtually eliminated

* TASTELESS AND EASILY SWALLOWED-

free from taste of PAS and quickly washed down with a drink; ideal for those who find cachets hard to swallow

* b.d. DOSAGE—two packets a day provide 12 grammes PAS and 300 mg. isoniazid

In tins of 60 (one month's supply) and 120 (two months' supply)
Also available in bulk granules pack for hospital use

Pycamisan and Inapasade are trade marks of T. J. Smith & Nephew Ltd.

When a drug has been therapeutically proved the next step in the service of medicine is to seek the most acceptable and convenient way of presenting it. To this end the 'Distampin' Disposable Injector—a new sterile unit consisting of a single-dose ampoule and hypodermic needle—is now available. The contents of the ampoule are under pressure for automatic injection without a syringe.

The 'Distampin' Injector is sterile—no sterilization is required except the preparation of the patient's skin.

Apart from its convenience and time-saving advantages, the risk of contact allergy in those handling drugs (e.g., antibiotics) is eliminated.
