# CONTENTS 1988

Supplemental oxygen and exercise ability in chronic obstructive airways disease AC DAVIDSON, R LEACH, RJ GEORGE, DM GEDDES ................................................................. 965
Effective pulmonary blood flow in normal children at rest JJ BOWYER, JO WARNER, DM DENISON ................................................................. 972
Abnormal haemostasis in small cell lung cancer R MILROY, JT DOUGLAS, J CAMPBELL, R CARTER, GDO LOWE, SW BANHAM ................................................................. 978
Does nedocromil sodium have a steroid sparing effect in adult asthmatic patients requiring maintenance oral corticosteroids? JG GOLDIN, ED BATEMAN ................................................................. 982
Influence of breathing pattern on lung deposition and bronchodilator response to nebulised salbutamol in patients with stable asthma BMZ ZAINUDIN, SEJ TOLFREE, M SHORT, SG SPIRO ................................................................. 987
Defective cell mediated immunity in sarcoidosis: effect of interleukin-2 DJ LYONS, L GAO, EB MITCHELL, DN MITCHELL ................................................................. 992
Intracavity drainage for bullous, emphysematous lung disease: experience with the Brompton technique GE VENN, PR WILLIAMS, P GOLDSTRAW ................................................................. 998
Left heart bypass in the surgery of aortic coarctation in children NJ BUCKELS, RG WILLETTS, KD ROBERTS ................................................................. 1003
Effect of aerosol challenge with sensitising antigen on the permeability of the surface of the rat trachea in life SM MUKHERJEE, P HEAP, F CARSWELL ................................................................. 1007

## SHORT REPORTS

Solitary plasmacytoma of the trachea treated by loop resection and laser therapy RA KAIRALLA, CRR CARVALHO, AA PARADA, VA ALVES, PHN SALDIVA ................................................................. 1011
Bleeding as a complication of fine needle lung biopsy T DOYLE, M MULLERWORTH ................................................................. 1013
Closure of a post-pneumonectomy bronchopleural fistula with fibrin sealant (Tisseel) RT ONOTERA, HW UNRUH ................................................................. 1015
Conditioning of the diaphragm by phrenic nerve pacing in primary alveolar hyperventilation PG WILCOX, PD PARÉ, JA FLEETHAM ................................................................. 1017
Bronchoalveolar lavage in talc induced lung disease AA REDONDO, DB ETTERSONH, M KHAN, N KESSIMIAN ................................................................. 1019
New extension of the Fontan principle: inferior vena cava-pulmonary artery bridge operation S NAWA, S TERAMOTO ................................................................. 1022

## CORRESPONDENCE

Why study the epidemiology of asthma? I GREGG; P BURNET ................................................................. 1024
Reproducibility of walking test results in chronic obstructive airways disease R MOSTERT, P SWERTS, EFM WOUTERS; AJ KNOX, FJJ MORMISON, MF MUERS ................................................................. 1025
Post-pneumonectomy pulmonary oedema MDD BELL; L VERHEIJEN-BREEMHAAR, JM BOGAARD, B VAN DEN BERG, C HILVERING ................................................................. 1026

## BOOK NOTICES
