AARONS, BARRIE J.: Simple apparatus for the simultaneous monitoring of central venous and mean arterial pressures in the ward, 382
Abdominal duplication, 82
ABER, CLIVE P., and CAMPBELL, J. A.: Significance of changes in the pulmonary diffusing capacity in mitral stenosis, 135
ABRAMS, LEON, and HEATH, DONALD: Lower oesophageal lined with intestinal and gastric epithelia, 285
ADDEs, GEORGE J.: Bicarbonate buffering in acute exacerbation of chronic respiratory failure, 337
Adrenocortical function in bronchial asthma, effect of corticosteroid and corticotrophin therapy on, 422
function in continuous asthma, 93
Air conditioners, recirculating, use of, to clean air of small wards, 146
Airways obstruction, chronic, dehpine dihydrogen citrate in, preliminary assessment of, 317
obstruction, generalized, multiple bronchiolar stenoses in, 309
ALLISON, P. R.: Peptic stricture of oesophagus (P), 288
Alveolitis, diffuse fibrosing: two cases with autoimmune features, 200
Aminophylline, intravenous, effect of, on arterial oxygen saturation in chronic bronchitis, 324
Amyloidosis of main bronchi (P), 478
Anaesthesia, general, unexpected electrocardiographic recordings in bronchoscopy under. 467
ANDERSON, JOHN A., and DUNNELL, M. S.: Observations on the estimation of the quantity of emphysema in the lungs by the point-sampling method, 462
AnurySm, left ventricular, congenital. 190
left ventricular, iatrogenic, recurrent haemorrhage from, 510
Aorta, coarctation of, with anomalous subclavian arteries, direct left ventriculofemoral bypass during resection of, 36
Aortic arch, chemodectoma in region of, 182
arch, normal, vasa vasorum of, x-ray microscopic study of, 76
valve disease, homograft valve replacement for, 495
valve disease, red cell survival in, 367
valve surgery under cardiopulmonary bypass, hypoxaemia after, 505
Arterial gas values, effect of venesection on, in chronic bronchitis, 441
oxygen saturation in chronic bronchitis, effect of intravenous aminophylline on, 324
oxygen tension, mean, and central venous pressure, apparatus for simultaneous monitoring of, 382
Asbestos, biological effects of (P), 287
Aspergillosis, allergic, transient pulmonary infiltrations in cystic fibrosis, due to, 385
total collapse of lung in, 118
Asthma, bilateral removal of carotid bodies for, 570
bronchial, effect of corticosteroid and corticotrophin therapy on adrenocortical function in, 422
continuous, adrenocortical function in, 93
exercise-induced (P), 285
Atrial pressure, left, during cardioplegia produced by profound hypothermia using closed chest technique, 234
septal defect, creation of, in transposition of great vessels, 574

Bronchi, main, amyloidosis of (P), 478
rupture of, by closed injury (P), 477
Bronchial and intercostal arteriography, selective, in
lung disease (P), 478
asthma, effect of corticosteroid and corticotrophin
therapy on adrenocortical function in, 422
atresia of left upper lobe, 214
carcinoma, advanced, cyclophosphamide in
management of, 555
carcinoma and hypertrophic pulmonary osteo-
arthropathy, relation between histology of, 537
carcinoma, central and peripheral, pre-operative
length of history and tumour size in. 398
carcinoma, serum lactate dehydrogenase in. 198
closure, 8
Bronchiolat stenoses, multiple, in generalized airways
obstruction. 309
Bronchitic subjects, acute effects of smoking on lung
airways resistance in. 562
Bronchitis, chronic, chemotherapy of (P), 287
chronic, effect of intravenous aminophylline on
arterial oxygen saturation in, 324
chronic, effect of, on changes in pulmonary func-
tion caused by irradiation of lungs. 303
chronic, effect of venesection on arterial gas values
and ventilatory function in. 441
chronic, infection with influenza and parainfluenza
viruses in, 124
Bronchoscopy under general anaesthesia, unexpected
electrocardiographic recordings in, 467

bronchus, 393
Carcinoma, bronchial, advanced, cyclophosphamide in
management of, 555
bronchial, and hypertrophic pulmonary osteo-
arthropathy, relation between histology of, 537
bronchial, central and peripheral, pre-operative
length of history and tumour size in. 398
bronchial, serum lactate dehydrogenase in. 198
Cardiac anomalies, congenital, embryology of, 158
failure in malignant disease, 114
output, effects of lung volume changes on, 242
surgery, influence of pulmonary hypertension on
(P), 480
Cardioplegia produced by profound hypothermia
using closed chest technique, left atrial pressure
during, 234
Cardiopulmonary bypass, hypoxaemia after aortic
valve surgery under, 505
bypass, low priming volume oxygenator for blood-
less priming in, 540
Cardio-thoracic patients, tracheostomy or endo-
tracheal intubation in post-operative management
of (P), 478
Carotid bodies, bilateral removal of, for asthma, 570
