

Thorax

The Journal of the British Thoracic Society

Editorials	189	<i>Thorax</i> with extra “e” R Orme
	190	Exercise training as an adjunct to asthma management? N Carroll, P Sly
	191	Field tests in pulmonary disease N Ambrosino
	194	Can manifesting heterozygotes have cystic fibrosis? M Super
Original articles	196	Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma I Matsumoto, H Araki, K Tsuda, H Odajima, S Nishima, Y Higaki, H Tanaka, M Tanaka, M Shindo
	202	Short term effects of aerobic training in the clinical management of moderate to severe asthma in children J A Neder, L E Nery, A C Silva, A L B Cabral, A L G Fernandes
	207	Addition of salmeterol versus doubling the dose of fluticasone propionate in patients with mild to moderate asthma J A van Noord, A J M Schreurs, S J M Mol, P G H Mulder
	213	The endurance shuttle walk: a new field test for the assessment of endurance capacity in chronic obstructive pulmonary disease S M Reville, M D L Morgan, S J Singh, J Williams, A E Hardman
	223	One year prospective open study of the effect of high dose inhaled steroids, fluticasone propionate, and budesonide on bone markers and bone mineral density J A Hughes, B G Conry, S M Male, R Eastell
	230	Histamine release upon adenosine 5'-monophosphate (AMP) nasal provocation in allergic subjects R Polosa, C Pagano, G Prosperini, J L Low, D Dokic, M K Church, N Crimi
	234	Increased neutrophils and cytokines, TNF- α and IL-8, in induced sputum of non-asthmatic patients with chronic dry cough A Jatakanon, U G Laloo, S Lim, K F Chung, P J Barnes
	238	Percutaneous cervical cordotomy for the control of pain in patients with pleural mesothelioma M B Jackson, D Pounder, C Price, A W Matthews, E Neville
Short report	242	Evaluation of pulsed dose oxygen delivery during exercise in patients with severe chronic obstructive pulmonary disease R Garrod, J C Bestall, E Paul, J A Wedzicha
Review series	245	Genetics and pulmonary medicine—9: Molecular genetics of chronic obstructive pulmonary disease P J Barnes
	253	Rare diseases: Introduction A E Tattersfield, R M du Bois
	254	Rare diseases—1: Lymphangioliomyomatosis: clinical features, management and basic mechanisms S Johnson
Occasional reviews	265	Do exogenous oestrogens and progesterone influence asthma? L Forbes
	268	How much asthma is really attributable to atopy? N Pearce, J Pekkanen, R Beasley
	273	Treatment of pulmonary hypertension secondary to connective tissue diseases O Sanchez, M Humbert, O Sitbon, G Simonneau
Case report	278	Clinical presentation of exclusive cystic fibrosis lung disease I Bronsveld, J Bijman, F Mekus, M Ballmann, H J Veeze, B Tümmler
Letter to the editor	282	Industrial injuries benefits for coal miners with obstructive lung disease A Newman-Taylor, D Coggon
Miscellaneous	282	Notice

The illustration on the front cover is from the article entitled “Lymphangioliomyomatosis: clinical features, management and basic mechanisms” by S Johnson which appears on pp 254–64.
