Contents

Editorials
697 Uric acid, lung function and COPD: a causal link is unlikely
S O Shaleen

699 Selective tumour necrosis factor receptor-1 inhibition in acute lung injury: a new hope or a false dawn?
P Sinha, L B Ware

702 Trends in tuberculosis in the UK
P Glazia, K Floyd, M Raviglione

704 Inequalities in asthma mortality: a specific case of a general issue of health inequalities
M Marmot

Cystic fibrosis
731 Data from the US and UK cystic fibrosis registries support disease modification by CFT modulation with ivacaftor
L Bessoneva, N Valleva, M Higgins, L Bengtsson, S Tan, C Simard, M W Kousan, G S Sawicki, A Sewall, S Nyangonga, A Elbert, B C Marshall, D Bilton

Lung cancer
741 Characteristics of new solid nodules detected in incidence screening rounds of low-dose CT lung cancer screening: the NELSON study
J E Walter, M A Heuvelmans, G H de Bick, U Yousef-Khan, H J M Groen, C M van der Aals, K Nagaearts, P M van Ooijen, H J de Koning, R Vliegenthart, M Oudkerk

Respiratory epidemiology
748 Plasma urate, lung function and chronic obstructive pulmonary disease: a Mendelian randomisation study in 114 979 individuals from the general population
C J Kobylecki, S Vedel-Krogh, S Afzal, S F Nielsen, B G Nordengaard

Respiratory research
758 Airway epithelial phosphoinositide 3-kinase-δ contributes to the modulation of fungi-induced innate immune response

Critical care
723 Novel anti-tumour necrosis factor receptor-1 (TNFR1) domain antibody prevents pulmonary inflammation in experimental acute lung injury
A Proudfoot, A Bayliffe, C M O’Kane, T Wright, A Seren, P J Bareille, V Brown, U I Hamad, Y Chen, R Wilson, J Corby, P Merley, R de Wildt, S Elhore, M Hind, E R Chioeens, M Goffrois, C Summers, D F McAuley
